Discussion Questions

1. Today's teaching is a general overview/review over everything Rabbi has taught up to this point in this lengthy series. What is the real goal of studying the book of Revelation and end times events?
2. Within the 21 judgements, when does Rabbi believe the Rapture will happen? What are some of the reasons for this belief?
3. What are the types or similarities Rabbi mentioned between the Exodus from Egypt and the end time appearance of Christ? What does 29 mentions of Jesus as the Lamb of God mean to these days? How are the plagues like the end time judgements?
4. Rabbi stated that it is important to be mentally and spiritually prepared for this mid tribulation coming of Christ in the Rapture. How can you continue to prepare today so you will not be caught off guard? Does this recharge your battery for knowing Him more deeply and witnessing to others more emphatically?
